IMPORTANT NOTICE

VIDAR floors are made from real wood, not manufactured imitations. As wood is a natural material, each plank of VIDAR flooring features unique characteristics, including naturally occurring variations in color, grain, and texture.

Please note that showroom samples and photographs are intended to provide a general representation of the product. However, they may not fully reflect the natural diversity in appearance found in the actual flooring. It is strongly recommended that customers inspect the product thoroughly before installation to ensure it meets their expectations in terms of quality and aesthetics.

Once installed, the flooring will be considered accepted by the customer.

Please be aware that natural wood may undergo color changes over time due to exposure to ambient light. These changes are a normal part of the aging process and may enrich the floor's overall appearance.

Note: Product availability and specifications are subject to change without prior notice.
